*(incorporated in Hong Kong with limited liability)*

## **RESULTS ANNOUNCEMENT**

**For the quarter ended 30 June 2003**

**Characteristics of The Growth Enterprise Market (“GEM”) of The Stock Exchange of Hong Kong Limited (the “Exchange”)**

**GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.**

**Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.**

**The principal means of information dissemination on GEM is publication on the internet website operated by the Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.**

## **BUSINESS REVIEW AND OUTLOOK**

This was a high season of SARS. Many business activities in Hong Kong, Guangzhou and Beijing, our bases of operation and the most seriously infected areas, were postponed or even halted as a result. The loss for this quarter was HK\$8.8 million compared to a loss of HK\$22.2 million during the same quarter in previous year. During this quarter, the directors continued to take a conservative approach for accounting purposes and a stringent view on recognizing revenue was still being adopted especially for contracts of relatively longer term in nature in Mainland China. The decrease in the loss for the quarter is mainly due to the following:-

1. No impairment in value of investment securities and allowance for deposit made for investment in an associate is needed in this quarter;

2. The better financial performance of associates and jointly controlled entities during this quarter. The share of losses of associates and jointly controlled entities amounted to HK\$5 million in the same quarter in previous year was mainly a result of the provision for impairment losses of the shares of the Company held by an associate and a jointly controlled entity and no such provision is needed during this quarter; and
3. The reduction of staff costs from HK\$6 million to HK\$4.3 million.

The EBITDA for the quarter ended 30 June 2003 is a loss of HK\$5.5 million compared to a loss of HK\$7 million during the same quarter in previous year.

We still managed to further intensify our reorganization and consolidation. The effect of reorganization and consolidation can be achieved through a reduction in development costs, an increase in the number of premium projects and an improvement in cash flow. We have gained different extents of progress in these areas.

We carry out reorganization and consolidation to prepare and strive for a persistent and real turnaround of the Group. Opportunities have arisen for us to capture in this regard.

We hope the day will come soon when Timeless and its shareholders can enjoy a real return, and we are striving for that day.
